BAR STOOL

Enduring quality, design, and passion.

Enduring Quality, Design, and Passion.

For 30 years, Holland Bar Stool has built furniture that blends style, comfort, and durability. What began as a bar stool company has grown into a complete line of custom seating, tables, décor, and game room products—trusted in homes and commercial spaces nationwide.

We make each piece to order at our Holland, Michigan facility, combining best-in-class components with precision craftsmanship. From dining chairs and counter stools to bar stools and officially licensed logo products, every item reflects our commitment to quality construction and thoughtful design.

Customization remains central to our process. Solid wood seats—crafted from genuine hardwood rather than veneers—are finished with durable catalyzed lacquer for long-lasting performance. Powder-coated metal frames resist rust and abrasion, while extensive upholstery selections, height variations, and custom logo applications provide flexibility across residential and commercial projects. Advanced digital printing, sublimation, and laser engraving deliver consistent, high-quality results with every order.

Our on demand production model supports efficiency without excess inventory. A one-piece minimum, standard 7–10 business day lead time, and drop-ship capability keep ordering and fulfillment simple and reliable.

We build our products to last for decades—not seasons. Durable materials, responsible sourcing, and efficient production processes reduce replacement cycles and support long-term value, while independent testing confirms our seating meets or exceeds ANSI/BIFMA standards for reliable performance in residential and commercial settings.

We invite you to explore this catalog and experience Holland Bar Stool's enduring quality, design, and passion.

Signature Steel Seating Series

Where superior craftsmanship, comfort, and sophistication come together.

Built with commercial-quality materials and expert construction, our steel chairs and stools deliver lasting strength and style. Each piece is crafted from 16-gauge, 1.25-inch steel with solid MIG-welded joints for unmatched durability. Many styles are also available in 304 stainless steel, while our powder-coated finishes resist rust, chips, and abrasions to ensure long-term performance and beauty.

Our swivel stools feature encased 52 stainless steel ball-bearing swivels, powder-coated for protection and designed to provide smooth, reliable rotation.

Personalize your seating with a wide range of upholstery options for cushioned seats or choose from premium wood finishes on solid domestic oak or maple seats. All cushion seats are made in Holland, MI, using high-density, U.S.-made foam wrapped in commercial-grade vinyl. A dacron wrap adds both comfort and a softer, rounded appearance.

Classic Seating Series

Timeless style meets modern craftsmanship in our Classic Seating Series.

Built with commercial-quality materials and expert construction, these chairs and stools offer the strength, durability, and rich appearance that have made them customer favorites for decades. Choose between a retro-inspired frame for a nostalgic look or our more contemporary signature frame for a refined update—both designed to deliver enduring function and beauty.

Our swivel stools feature encased 52 stainless steel ball-bearing swivels, powder-coated to resist rust and engineered for smooth, reliable rotation.

Every seat is crafted in Holland, MI, using high-density, U.S.-made foam wrapped in commercial-grade vinyl. A dacron layer adds comfort, support, and a softer, rounded look. With a wide upholstery selection to choose from, you can personalize your stool or chair to complement any space with ease.

Stack Seating Series

Traditional style meets commercial quality in our Stack Seating Series, delivering reliable performance for hospitality, business, and personal use.

Each chair is designed with a large frame and higher seat back for comfort and support, independently tested to hold up to 750 lbs. The frame is constructed from 3/4-inch square, 18-gauge mechanical-grade steel with a 1/2-inch rear leg bar for added strength. A black, baked powder epoxy finish resists abrasion and maintains a clean, professional look.

The seat and back feature commercial-grade black vinyl, with hidden fasteners on the two-piece upholstered back pad for a sleek finish. A 2-inch sewn seat with high-density foam ensures lasting comfort, while meeting or exceeding Cal Spec 117 flame-resistant standards.

Practical details such as nylon floor glides and stack bumpers protect both floors and frames, making these chairs easy to use, transport, and store—without sacrificing durability.

Indoor Table Series

Designed to complement any entertainment space, our Table Series offers a variety of styles that balance durability, function, and design.

Bases

Crafted with uncompromising quality and attention to detail, our bases feature a cast iron or steel base, a sturdy steel column, and a cast iron spider or square steel top plate. Powder-coated, 304 stainless steel, and chrome finishes resist rust and abrasion to ensure lasting beauty and performance. Available in multiple heights and top-size configurations, these bases are ideal for both residential and commercial environments. Each base includes adjustable levelers for added stability on uneven flooring.

Tops

Our reversible tops deliver versatility and resilience. Constructed with a hardened MDF core, scratch-resistant laminate surface, and durable trim, they're designed for premium performance. Each top features a sleek black finish on one side and a warm dark cherry wood grain on the other

Licensed logo tops are also available, built with the same hardened MDF core, scratch-resistant laminate, and durable trim for long-lasting, resilient use—while showcasing your favorite team, brand, or organization.

Outdoor Series

Spending time outdoors is one of the best ways to relax, recharge, and connect with nature. Outdoor living spaces extend comfort beyond the home, and our Outdoor Series provides the perfect blend of style, durability, and performance to make the most of that time. Offering a wide selection of seating and tables, this collection is built to withstand the elements while elevating any residential or commercial setting.

Seating
Choose from electroplated black or 304 stainless steel finishes for long-lasting durability and modern appeal. Many styles are available with outdoor-rated cushions constructed of a moisture-proof polycarbonate blank to withstand inclement weather conditions. Cushions are finished using your selected color of outdoor-rated Breeze with Permablok® Plus+ and Permacool™ vinyl for comfort that endures through every season.

Table Bases
The 211, 214, 216, and 219 table base styles are available in outdoor-ready designs, built to perform beautifully in any environment. Finishes in electroplated black powder coat, 304 stainless steel, and brushed aluminum offer lasting strength and superior resistance to the elements.

Table Tops
Engineered for all-season use, our tops are weatherproof, impact-resistant, and scratch-resistant for dependable performance. Easy to clean and requiring minimal maintenance, they are ideal for both residential patios and commercial outdoor spaces.

Licensed Logo Seating

Upgrade your space with licensed seating designed for both residential and commercial use.

Choose from Signature Series steel frames with 16-gauge tubing, MIG-welded joints, and durable powder-coated finishes, or Classic Series designs with retro styling and enhanced performance.

Swivel stools feature encased stainless steel ball-bearing swivels for smooth, reliable rotation.

Each seat is handcrafted in Holland, MI, with high-density foam, and commercial-grade vinyl. A Dacron wrap offers lasting comfort and a polished look.

Officially licensed logos are digitally printed with UV-cured ink for vibrant, long-lasting color and select models offer a laser-engraved wood back for a refined look.

LED Table and Stool

Distinctive all-weather LED tables bases and stools are perfect for indoor/outdoor use, commercial, residential, and promotional applications, as well as events and trade shows.

Both table bases and stools feature electro-coated steel bases for all-weather use, waterproof, rechargeable LED light units (up to 12 hours on single charge), and programmable IR remote with 16 different static color options and 4 transitional settings.

Each table and stool features 4 durable Lexan panels that can be customized. Additional and/or replacement panels are also available. Select either an indoor logo top or an outdoor non-branded Enduro top.

Stools include a stainless steel foot ring for durability, while seats are crafted from high-density foam wrapped in commercial-grade vinyl for lasting comfort and performance.

Parts and Accessories

Our commitment to sustainability includes providing parts, pieces, and accessories so the strength and beauty of your investment endures.

Fabric by the Yard.

Upholstery options can be purchased by the yard so you can reignite your style. Simply let us know the upholstery name or number and the yardage amount needed.

Floor Protection.

Furniture can unintentionally damage your floor by causing scratches and abrasions. To protect your flooring, select from our variety of glides (shown on Page 97).

Foot Rails.

Foot rails provide protection and additional design elements to stationary seating. Available in chrome, bronze, brass, copper, and black finishes to accommodate a variety of design motifs. 11 inches long.

Seats.

Replacement seats extend the life of your seating. Available in the following options:

TRC - 14.5" round, 4" tall, available in any HBS upholstery or COM
RC - 14.5" round, 2.5" tall, available in any HBS upholstery or COM
SD - 14.5" round, 1.75" tall, saddle dish, available in solid oak or maple
810 - 17" wide, 16" deep, 2.5" tall, available in any HBS upholstery or COM

I: Measuring Seating, Tables, and Space

It's important to measure your seating and tables to ensure comfort. We recommend 12 inches between your seat height and the top of your table, counter, or bar. Standard seat heights and terminology are:

18 inches = Chair
25 inches = Counter stool
30 inches = Bar stool

Please note seat heights for cushioned options measure slightly higher to account for compression while seated.

To assist with proper measurements for your seating, please refer to the diagram and information to the right.

In addition, the below diagram illustrates the recommended seat height for common table, counter, and bar heights. If your table, counter, or bar is between the heights shown below, please contact us. We offer custom heights for many seating styles.

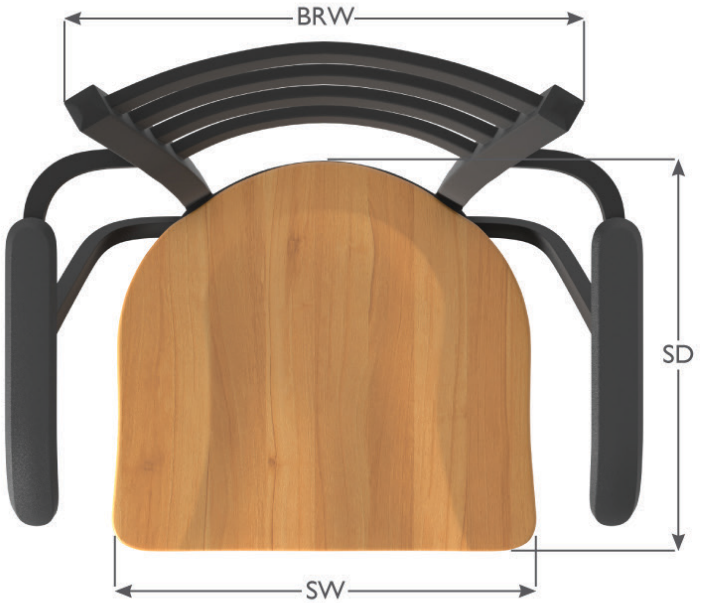

Measuring your space is also important. To calculate how many stools you will need for your space, measure your counter (in feet). Next, divide by two. This will give you the approximate number of stools to best fit your space. Two feet of counter space per stool is a comfortable arrangement for most Holland Bar Stool seating.

II: General Information

Lead Time and Shipping Method
To meet the needs of your busy schedule, we stock substantial inventory to ensure low lead times and ship most orders within 7-10 business days. We use FedEx Ground and Common Carrier, unless otherwise specified.

Wood Finishes and Custom Staining
Our 7-step, commercial furniture industry finishing system cleans and etches to enhance adhesion. We use only the finest catalyzed lacquers and paints for a strong, durable finish. Our finishing department can custom match almost any finish; simply send us a sample. Please allow approximately 2 weeks for delivery.

Fabric and Vinyl Cushions and Customer Owned Upholstery (COM)
We offer hundreds of upholstery options, but also offer a COM option. Please send the COM to us at the rate of 1/2 yard per seat (1 yard minimum, unless otherwise noted). For repeats and matches, 20% additional material is required. COM is priced as a Grade 1 material.

Fire Retardant - Foam and Upholstery
Holland Bar Stool manufactures all seating products to nationally recognized standards for fire retardant upholstered materials and foam padding. We use 100% urethane foam with no fillers. This product passes the following flammability specifications:

- California Technology Bulletin
- FMVSS No. 302

Wood Species
Domestic hardwood is available in oak or maple. The Hampton Series and #910 Industrial are only available in beech. Seats for the Steel Series are either oak or maple.

Floor Protection and Glides
Super Glide floor protectors are optional on all wood stools. Universal glides for steel seating provide supreme protection for any floor surface.

Levelers
Adjustable levelers are standard on all tables.

Swivels
Our encased 52 stainless steel ball bearing swivels are powder coated to resist rust and ensure a smooth rotation for a quality seating experience. We offer two options.

S-360: Standard swivel with a 360 degree, continuous rotation.

Memory: Optional swivel with a 180 degree rotation and an internal spring that returns the seat to its original position. Available only for backed stools.

If you like the style of a certain swivel stool but do not want the seat to rotate, we can weld the swivel and lock the stool in a stationary position.

Recommended Cleaning Procedures

Wood Seats and Trim:
Using a clean, soft, damp (water only) cloth, wipe surface then spray with furniture polish and wipe clean with a separate clean, dry, soft cloth.

Chrome Finishes:
For best results, use a chrome polish and follow manufacturer's instructions.

Painted and Powder Coat Finishes:
Using a damp cloth with soapy water, clean and wipe dry.

Upholstered Seats:
Using a damp cloth with soapy water, clean and wipe dry. Use spot removers with caution (follow manufacturer instructions and test in an inconspicuous area).

Licensed Logo, Custom, Digitally Printed Vinyl Seats:
Spray with furniture polish and wipe dry with a clean, dry, soft cloth.

Table Top Surfaces:
Using a damp cloth with soapy water, clean and wipe dry.
